**REAL-WORLD
EXPERIENCE**

At Bullard-Havens Technical High School, students become prepared for the real world in every way possible. They learn high-demand technical skills, take college-prep classes and learn and develop career and employability skills. Bullard-Havens Technical High School teaches our graduates the necessary skills to become successful employees and college students.

is an affirmative action/equal opportunity employer.*

HOW WE LEARN

At Bullard-Havens Tech, talented academic and career technology teachers collaborate to design high-tech lessons. Our unique educational program prepares Bullard-Havens Tech graduates for immediate employment, entry into apprenticeship programs or admission into a college pathway.

“ EACH STUDENT GRADUATES WITH A HIGH SCHOOL DIPLOMA AND A CERTIFICATE IN THEIR CAREER TECHNICAL FIELD.

Ninth-grade students participate in all of the technical programs offered at Bullard-Havens Tech through the Exploratory Program. This experience allows students to engage in the various career path opportunities before choosing one that will set the framework for their education in grades 10-12. Students take academic and career technology courses on a rotating schedule.

Students may have the opportunity to participate in the College Career Pathways (CCP) program with local community colleges and Dual Enrollment Programs through local universities. Through these programs, students can earn college credit while in high school and prepare for advanced coursework required by colleges. Grade 12 students may also be eligible to earn the Connecticut Seal of Biliteracy. This is an award in recognition of students who have attained proficiency in English and at least one other language.

HOW WE WORK

Work-based Learning (WBL) is an opportunity for eligible students in grades 11 and 12 to gain real-world experience, work in teams, solve problems and meet employers' expectations that lead to employment partnerships. WBL takes place during the school day, and students receive credit toward their career technology, while earning wages. Through partnerships with local companies, students work on real projects, gaining the hands-on career developmental experiences needed to perform at industry expectations.

Students also participate in related Production Work as part of their exposure in their technical program. Examples of production work include building a house, performing salon services, and catering. This work helps prepare students to successfully transition from high school to the workforce.

“ STUDENTS RECEIVE CREDIT TOWARD THEIR CAREER TECHNOLOGY, WHILE EARNING WAGES.

Our Career Technologies include:

- Architecture
- Automotive Technology
- Carpentry
- Criminal Justice & Protective Services
- Culinary Arts
- Electrical
- Graphic Design
- Hairdressing & Cosmetology
- Health Technology
- Information Technology
- Masonry
- Plumbing & Heating
- Precision Machining Technology

HOW WE PLAY

Bullard-Havens Tech students have a variety of sports and activities to choose from:

Athletics: Football, Soccer, Volleyball, Basketball, Cross Country, Baseball, Track & Field, Softball and Cheerleading.

Clubs and Activities: Student Council, National Honor Society, SkillsUSA, and various other clubs.

WHAT MAKES US DIFFERENT

Connecticut Technical Education and Career System (CTECS) graduates prepare for working and learning environments that constantly change. By helping students change and adapt to new standards in emerging technologies, students acquire the necessary skills to succeed in the work place, pursue their education pathway and become productive members in society.

With the guidance from industry leaders, Bullard-Havens Tech students graduate with industry certifications or licenses, post-secondary certificates or degrees that employers use to make hiring and promotion decisions. These graduates are empowered to pursue future schooling and training as their educational and career needs evolve, positioning them to be the country's next leaders and entrepreneurs.
